Vanessa,

Per yesterday's conversation, I've attached a parcel map and the RA Report. This should provide some scope of what will be done and where – and I apologize, it does look like there may be some groundwater aspect to the response. The RA Report refers to some other reports, but rather than inundate you, just let me know if you'd like to see any additional reports and I'll provide you what you need. I've cc'd the site's OSC, and she is happy to discuss any technical questions you may have. We both have some availability this Wednesday, Thursday, and Friday, and some limited availability next week, so let me know if there is a particular time or date that works for you and I can set up a Teams meeting.
